Dear Township Fathers:

It has been made known to the Department that an agreement between the Whitemarsh Township Residents Association and the developers of a proposed nursing home on Erdenheim Farm Property has been reached. I would like to relay to you our full support for such forward thinking and cooperation. I am sure that you too will realize the benefits of such an agreement and fully support it in its entirety realizing the precedent set by such and the legacy you will bequeath of your tenures as Township Leaders.

This is truly an impressive feat of cooperation and smart growth.

Sincerely,

Eric Brown
